

Have you received your routine Tuberculosis (TB) skin test?

Texas Children's is committed to safeguarding the health and well-being of our employees, our patients and their families. Supporting this commitment, the employees listed below should have a routine TB skin test by July 1, 2019.

- **Employees who have *direct* patient contact**

Includes but not limited to: Nurses, medical assistants, patient care assistants, nurse practitioners, physician and physician assistants and respiratory therapists.

- **Employees who may have *indirect* patient contact**

Includes but not limited to employees in the following departments: facilities, operations, radiology, leadership and case managers.
