Stay Safe: October is National Cyber Security Awareness Month!

October is designated as National Cyber Security Awareness Month by the National Cyber Security Alliance. Each year, the campaign encourages safe online behavior by educating users on the importance of cybersecurity and how to be cybersafe. This year we are featuring various activities intended to educate and entertain!

Stay Refreshed: Cybersecurity Games Return for 2021!

Cybersecurity Games return for 2021! Cybercriminals know humans are often the weakest link in information security, so it's everyone's responsibility to defend our organization!

Watch for email invitations from **Living Security**, TCH's cyber security training tool, and **KNOWBe4**, TCH's phishing campaign tool, to play games/puzzles/trainings, watch a TCHFLIX and compete in a security-themed [Cyber Escape Online](#) game.

CYBER SECURITY ANNUAL TRAINING

Coming Soon: Required Cyber Security Annual Training

Practical Security for Protecting You and Our Patients, an annual required course intended to promote basic security awareness, will be available **Monday, November 1**, in HealthStream. All Texas Children's employees, Baylor staff, contractors and volunteers are required to complete this training. Watch for more information coming soon!

Stay Informed: Avaya Maintenance to Reboot IP Phones

Information Services will update IP Phones based on the schedule linked below. The maintenance is minor but will cause phones to reboot. [Click Here](#) for details on the update schedule, what to expect and more!
