All my colleagues in the divisions of Pediatric Cardiology,  
CV surgery, CV anesthesia, and the CV ICU

Those who have not worked in other practices may believe that the sense of community that exists here is a normal unremarkable part of work life. Having worked in my share of heart centers in the Northeast and midsouth, I have come to recognize that the group here is remarkable, not only for the work that is accomplished, but also for the determination to work together as a cohesive team where we all have each other's wellbeing in mind as well as the work we need to accomplish. It is rare particularly in a unit this large to see this kind of comradery and sense of community and for that I am very grateful.
